

The 2023 Water and Natural Resources Tour will explore Northeast Nebraska. Participants will gain first-hand experience with the water management practices and water quality challenges of that region of the state.

Tour stops include

- Norfolk Riverfront development
- Bazile Groundwater Management Area
- Gavins Point Dam
- Ashfall Fossil Beds

The 2023 Water Tour is being hosted by the Nebraska Water Center and the Central Nebraska Public Power and Irrigation District.

The Water Tour was first held in 1975. The tours are designed to enhance understanding and appreciation for water management in Nebraska and beyond, providing an educational experience for anyone interested in natural resource management.
