Nebraska farmer Roric Paulman will be presented with the 2020 Maurice Kremer Groundwater Achievement Award on Wednesday, March 4 (see below). The award has been presented annually since 1986 by The Groundwater Foundation to Nebraskans who have provided exceptional groundwater-related services to the state. The lecture also doubles as the annual Kremer Memorial Lecture.

**WATER SEMINAR & KREMER LECTURE**

“Through a Farmer’s Eyes”

Roric Paulman  
Paulman Farms  
Wednesday, March 4, 2020  
3:00pm (Cookies & Coffee Reception)  
3:30 – 4:30 p.m. (Seminar)  
East Campus - Hardin Hall Auditorium

Abstract: Paulman will discuss the journey of starting in surface water farming, deepening his understanding of water issues, helping others and being involved as an advocate and landowner. Paulman will also talk about starting NEWBA (Nebraska Water Balance Alliance) as a grassroots organization to help with innovation and cultural issues in the water world.
